Ross Kasal
rnk14
PS6
Ariac Inspector

For this assignment I was not able to fully complete all three functions. In the time I had available I attempted to work through the problems and create psuedo code on how to solve them. I particularly struggled at the jump in difficulty from previous assignments and did not feel prepared. I hope I did my best effort with the time I had available however. You can find my code sections by searching "PSEUDO CODE HERE".

I am going to attach a copy of this writeup as well as a zip of the files.
